## Press Release

# Let's Get Real!

## Working Families Still Waiting for Accountability and Jobs

*After watching Governor Scott's State of the State Address Mike Williams, President of the Florida AFL-CIO, had these remarks:*

"Today's State of the State Address by Florida's "Let's Get to Work" Governor is just another example of the fluff and misleading rhetoric that has come to characterize his administration. There was NOTHING in today's remarks that departs from the same tired old policies that have dominated Florida for the past thirteen years and created the current economic crisis. Missing were any solutions to get the over 1 million Floridians out of work back to earning a paycheck. Our state is broken, that is the real state of Governor Rick Scott's Florida."

**For Release January 10<sup>th</sup>, 2012**
