**House Transportation Chairman Mica (FL-7) returns from out-of-state fundraiser.
His FAA Shutdown stopped 78,000 paychecks and cost more than \$300 Million.
Maybe he should spend more time in-state?**

Come meet the man who put 78,000 people out of work and lost the US Government \$300 million in revenue – and plans to do it again in September if he doesn't get his concessions to rob air and rail employees the right to fair elections.

It is beyond time to negotiate a long-term FAA Reauthorization bill that improves our aviation infrastructure, grows our economy, delivers hundreds of thousands of new jobs, and keeps elections fair for air and rail employees.

We're going to meet Rep. Mica at his fundraiser to tell him to ***Pass the FAA Reauthorization Bill!*** This is about Aviation – Not Ideology!

Mica told the Washington Post last Friday, "I've had a brutal week, getting beat up by everybody." link: http://www.washingtonpost.com/opinions/the-faa-shutdown-and-the-new-rules-of-washington/2011/08/04/gIQAJIUOvI_story.html

Congressman Mica: You haven't seen nothing yet!
